- ▶ Adjustable Panel Series
- ▶ LED Panel Light Series
- ▶ LED Track Light Series
- ▶ Strip Light Series
- ▶ LED Wall Light Series
- ▶ Surface Light Series
- ▶ Hanging Light Series
- ▶ Bedside Lamp Series
- ▶ Around the wall Series

COB DOWN LIGHT SERIES

This series includes recessed focus lights (single point of the light source), directional lights, and reflectors to highlight various items. Due to the perfect combination of fit and finish with exemplary performance, this series is the preferred choice of architects.

These are best applicable in showrooms for product display, homes as accent lighting for highlighting showpieces, hotels, restaurants, and create contrast lighting to set the right mood.

PRODUCT FEATURES:

- Perfect replacement of the traditional lights
- Saves 80% electricity cost
- Better performance
- Easy installation

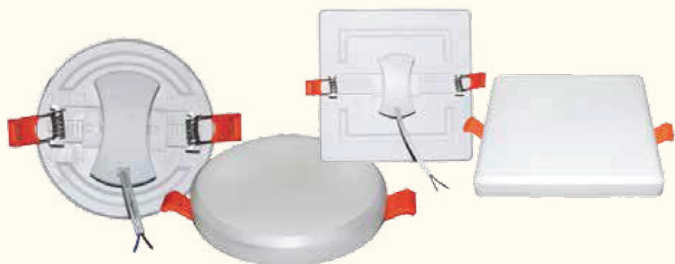

ADJUSTABLE PANEL SERIES

Architectural lighting has cut out sizes that can be adjusted according to customer needs. The adjustable movable buckle allows covering any shape of the downlight body.

The adjustable panel series is widely known for its use in showroom display racks, mirror dressing tables, drawing rooms, and bedrooms.

PRODUCT FEATURES:

- Perfect replacement of the traditional lights
- Saves 80% electricity cost
- Better performance
- Longer life span

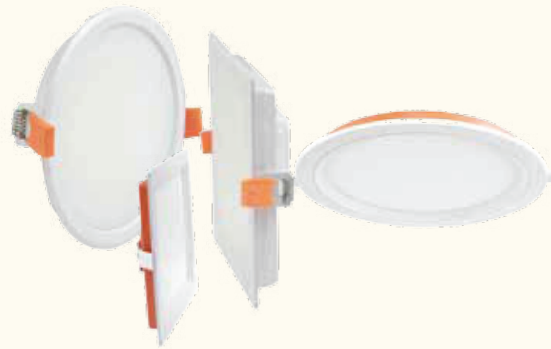

LED PANEL LIGHT SERIES

This lightweight light offers high efficiency and durability and is available in various shapes and sizes. It delivers high brightness and excellent illumination with instant light and no flicker.

The LED Panel Light series is widely used in offices, stores, shops, stadiums, streets, driveways, parking lots, warehouses, and other outdoor areas. It is also very popular for indoor lighting in the stairwell, living room, kitchen, washroom, laundry room, utility room, closet, and even garage.

PRODUCT FEATURES:

- Optical anti-glare design
- Low maintenance
- Low power consumption
- Better performance

LED TRACK LIGHT SERIES

In these lighting series, light fixtures are attached anywhere on a continuous track rail which is electrically charged. So, there is no need for wiring to individual light positions. It poses numerous advantages such as energy efficiency, longer lifespan, lesser heat emission, relatively inexpensive and versatility to add or remove.

This compact size track spotlight is designed to be used as an accent light or task light and mostly can be seen in commercial places like retail stores, shopping malls, showrooms, and offices because of its directional lighting.

PRODUCT FEATURES:

- Optical anti-glare design
- Low maintenance
- Low power consumption
- Specially designed for indoor use

STRIP LIGHT SERIES

This series includes flexible strip lights have an adhesive backing for easy mounting and can be cut too. These are omnidirectional LEDs in the standard rope light packaging and offered in the waterproof option as well. The best part is it has numerous applications and can be used anywhere you like.

It can be used as an accent or task lighting or both and is an affordable option for both commercial and residential lighting applications, be it ceiling, cabinet light, staircase, or outdoor.

PRODUCT FEATURES:

- Better performance
- Longer life span
- Specially designed for indoor use
- Easy installation

LED WALL LIGHT SERIES

These include focus lights that can be fixed on any type of wall or ceiling to highlight a decor piece and give a stylish look to your simple walls. COB lights generate crisper and cleaner light as there is no frosting on the lenses. Due to the clear lenses, more light can penetrate further which means they perform well in rooms with high ceilings.

The LED wall light series are mostly used in showrooms or other display offices. It is a must-have for houses with high ceilings and villas. These can even be used outdoors.

PRODUCT FEATURES:

- Optical anti-glare design
- Low maintenance
- Specially designed for indoor use
- Easy installation

SURFACE LIGHT SERIES

This light series is mainly used as ceiling fixtures and is the best-suited lighting that is versatile and practical for your space as it can be used on any type of ceiling. These lights are so elegant in design that it will integrate seamlessly with your white ceilings.

The surface panel light series is mostly in relatively larger indoor places like shopping malls, showrooms, and galleries, etc. Though, it is also very much popular for indoor home lighting.

PRODUCT FEATURES:

- Perfect replacement of the traditional lights
- Saves 80% electricity cost
- Better performance
- Longer life span

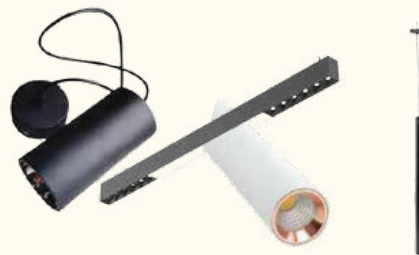

HANGING LIGHT SERIES

Hanging lights always steal the show, whether for lighting purposes or aesthetic design. It offers superior illumination in a sleek package and is so adaptable that can be installed practically anywhere.

From residential spaces like kitchens and entryways to commercial areas like lobbies, pendant lights serve as a focal point that draws the eye upward and blends well with existing furniture and accessories.

PRODUCT FEATURES:

- Optical anti-glare design
- Low maintenance
- Specially designed for indoor use
- Easy installation

BEDSIDE LAMP SERIES

This series includes perfect reading lights or desk lamps for your home office, writing desk, and art studio. Hyper-focused clamp on to read at night which can be easily placed at your bedside table.

These lights are mostly used in hotel and other residential bedrooms.

PRODUCT FEATURES:

- Better performance
- Longer life span
- Optical anti-glare design
- Low maintenance

AROUND THE WALL SERIES

These trendy, robust, and economical exterior wall lights not only look fantastic but are also durable and weatherproof. High quality materials and outstanding product designs will add a touch of style to your exterior theme. This lighting series will provide a natural and classy look without much effort. These lights are usually mounted on the outside facing walls of buildings to be the center of attraction of the high-quality architectural outdoor lighting.

PRODUCT FEATURES:

- Specially designed for outdoor use
- Optical anti glare design
- Easy installation
- IP 54/65 protection rating to ensure safety

Outdoor Lighting

CATEGORIES
